## Experience

### Frontend Developer - Internship

*Read Automation Private Limited*

Jan 2025 - Feb 2025

- Develop and maintain responsive websites using HTML, CSS, JavaScript, and frameworks like React. Gain hands-on experience with version control systems Git and project management tools.
- Collaborate with cross-functional teams to design and implement user-friendly interfaces. Debug and optimize code to improve website performance and ensure seamless functionality.
- Learn the importance of clean, scalable, and maintainable code while working on real world projects and sharpen my technical and problem-solving skills.
- This experience not only enhanced my technical expertise but also taught me the value of teamwork, adaptability, and continuous learning in a fast-paced environment.

### Flutter Developer - Freelance

*Chenna Ai Tech Solutions*

May 2025 - Jul 2025

- Built and designed basic user interfaces for client apps using Flutter's default widgets, making sure the layouts looked good on both Android and iOS devices.
- Worked with clients to understand their app design ideas and turn sketches or simple wireframes into real app screens.
- Kept my Flutter code organized and reusable by using only built-in tools, helping speed up UI development on future projects.
- Tested UI on various devices to identify display issues and made adjustments to ensure a smooth, consistent user experience.

## Education

### Bachelor of Computer Science (BSC)

*H H The Rajah's College*

2021 - 2024

7.7 (CGPA)

### 12th Standard (High School)

*Govt High School*

2020 - 2021

9.0 (CGPA)

## Live Projects

### Movie Web Application

*movie-app*

*Developed a movie web app using React.js and The Movie Database (TMDB) API to fetch and display movie data dynamically.*

### E-Commerce Web App

*nostra-web*

*Created a responsive, interactive shopping UI with HTML, CSS, and JavaScript, including search filtering and a sticky header for easy navigation across devices.*

### Article Ui

*article-ui*

*Designed and developed a clean, responsive article UI using HTML, CSS, and JavaScript to ensure seamless readability across different devices.*

### Revamped Company Site

*revamp-site*

*Revamped the automation company's website by redesigning the UI using HTML, CSS, and JavaScript to create a modern, user-friendly layout.*

### Personal Portfolio

*portfolio*

*Developed a personal portfolio website using HTML, CSS, and React to showcase projects and skills with a clean, modern design.*
